### **Numonics Corporation Announces DUAL PEN field upgrade for [INTELLIBOARD®](#) Interactive Whiteboard**

**December 14, 2010, Montgomeryville, PA**– Now it is possible for existing INTELLIBOARD customers to easily and economically upgrade their interactive whiteboards to have dual pen functionality. “Now two students can write simultaneously on the classroom interactive whiteboard completing lessons,” stated Alfred N. Basilicato President & CEO of Numonics Corporation. “Numonics introduced the world’s first interactive whiteboard utilizing pen based technology in 1994 and contributed to the revolution that has taken place in classrooms across the world. Adding the dual pen function to our award winning interactive whiteboard is a further indication of our commitment to making our products relevant in the digital classroom. Our robust patented electromagnetic design gives us the confidence to offer the industry’s only limited lifetime warranty for a large format interactive whiteboard,” Basilicato continued.

The Dual Pen field upgrade kit for all INTELLIBOARD Windows products is **\$299**. The low cost of the upgrade kit incorporates the return of the swap out electronics. The dual Pen Upgrade kit will consist of the following:

1. New dual pen capable electronics module and accompanying installation instructions
2. INTELLIBOARD software CD
3. One (1) Red DS pen
4. Two (2) AAA batteries & pen tips
5. One (1) pen holder and accompanying instructions
6. A pre-paid return envelope for the swap out electronics

“The second pen (Red DS) operates on a different frequency and it is a different color to differentiate the pens,” stated Tom Harwick, Numonics Sales Manager. “The upgrade kit is available on the Numonics website with complete easy to follow instructions for accomplishing this simple upgrade in the field,” stated Steve Hildebrandt, Customer Support Manager.

#### **About Numonics Corporation**

Numonics Corporation is an award-winning technology pioneer in pen-based digital presentation solutions.
