### **Numonics Corporation Announces EASYBOARD Interactive Whiteboard for Fire and Police Academies**

**June 9, 2011, Montgomeryville, PA**– “EASYBOARD is the newest and easiest to use interactive whiteboard available designed for simplicity,” stated Alfred N. Basilicato President and CEO of Numonics Corporation. “Emergency services personnel need technology products that enhance their critical training mission without a time consuming and frustrating learning curve. EASYBOARD is the quickest to learn and easiest to use interactive whiteboard available for Fire and Police professionals,” Basilicato continued.

“Numonics pioneered live web-based training which is available to all EASYBOARD customers “at no charge”, said Suzanne Fels, Director of Professional Development at Numonics. “Our live interactive training sessions insure the efficient integration of EASYBOARD into the fabric of the academy and their training mission. The annotation tools permit writing over images used for various applications like incident analysis and resource allocation in the field,” she continued.

Numonics introduced the world’s first interactive whiteboard utilizing pen based technology in 1994 and contributed to the digital revolution that has taken place in classrooms and training centers across the globe. EASYBOARD offers a ten (10) year warranty with product registration and is available immediately.
