### **Numonics Corporation Announces National On-Site Installation Agreement**

**October 31, 2011, Montgomeryville, PA**– “National Service Center (NSC) has agreed to install Numonics complete family of interactive whiteboards and accompanying accessories across the country”, stated Alfred N. Basilicato President and CEO of Numonics Corporation. “This is exciting news for all our schools districts especially those in secondary and tertiary markets where local reseller site visit support may be difficult. This national agreement encompasses our entire award winning interactive whiteboards including Intelliboard®, DPAIL, Easyboard®, Cleverboard® and the Mead Interactive Whiteboard and 3M data projection systems. We are pleased to announce this agreement with a professional and respected technology partner who can respond to on-site opportunities in major and secondary markets,” he continued.

Joe Pittillo, President of National Service Center stated, “We at NSC are excited to have been selected as a national installation partner of Numonics Corporation, and to have the opportunity to assist in the deployment of such important education technology.” National Service Center was established in 1995 as a services-only company providing equipment maintenance, installations, spare parts distribution and project management to technology resellers.

“Numonics introduced the world’s first interactive whiteboard utilizing pen based technology in 1994 and contributed to the digital revolution that has taken place in classrooms and training centers across the globe. Adding countrywide on-site installation capability with the National Service Center will strengthen our relationship with our large installed base of schools,” stated Tom Harwick, Numonics Sales Manager.

#### **About Numonics Corporation**

Numonics Corporation is an award-winning technology pioneer in pen-based digital presentation solutions.
