
Britannica DVD Teacher Resources

If you received the Britannica Ultimate Reference Suite DVD with your product, you have over 200 lesson plans and activities for each library: K-5 and 6-9 students; covering Language Arts, Math, Science and Social Studies. Look in either the Elementary or Student Library under **Homework Helpdesk - Games and Activities**.

The Elementary Library:

- Language Arts Activities are stories that include a quiz and printable worksheets for students to complete
- Math Activities are interactive shockwave files, some with printable worksheets
- Exercises are interactive flash games
- Web and Encyclopedia Activities are questionnaires based on specific Encyclopedia articles

The Student Library:

- Student Guides include lessons, activities, resources and Teachers notes
- Activities are shockwave files that include a lesson plan overview, activity sheets, and quizzes
- Web Activities are printable questionnaires for students to complete based on specific web research
- Encyclopedia Activities are questionnaires based on specific Encyclopedia articles

Free training webinars and materials are available from Britannica at http://info.eb.com/html/er_free_training_sessions.html
